KASKASKIA COLLEGE
MODES OF INSTRUCTION

FACE-TO-FACE

On-campus and in-person classes on a scheduled day(s) and time(s) in a classroom.

Traditional face-to-face classroom setting

ONLINE (OL)

100% online via Canvas Learning Management System, without any scheduled day(s) or time(s) on-campus.

Students access the course online on their own schedule with established deadlines.

ONLINE WITH PROCTORING (OP)

Delivered online via Canvas Learning Management System, with minimal campus visits required.

Students come to campus for scheduled orientation and/or proctored exams at a scheduled day(s) or time(s). Instructors will share required attendance dates/times during the first week of class.

HYBRID (HY)

Combines both face-to-face and online components via Canvas Learning Management System.

Face-to-Face meeting on scheduled day(s) and time(s). Additional online participation may be scheduled at specific times or completed on your own schedule. Instructors will share online component expectations during the first week of class.

DISTANCE LEARNING (DL)

Remote course with scheduled day(s) and time(s) connecting students from multiple locations.

Available remote technology including but not limited to Zoom or Teams.

HYFLEX (HF)

Face-to-Face and remote formats meet simultaneously on scheduled day(s) and time(s).

Students are required to contact the instructor in advance to discuss their preferences and limitations.

ADDITIONAL INFORMATION

Students with questions regarding on campus attendance should contact advising prior to course enrollment.

Based on seat availability and classroom technology, the instructors coordinate in-class attendance. However, depending on circumstances beyond our control, instructors may rearrange in-class attendance, instructional mode, and relevant activities.

All Kaskaskia College courses utilize Canvas Learning Management System. Canvas requires students to have access to a computer, laptop, or other device that meets the Canvas basic computer requirements.

Some Kaskaskia College courses may use the web-based platform Respondus to monitor quizzes and/or exams taken remotely for purposes of detecting potential instances of academic dishonesty. On quiz/exam day, students will need to have a photo ID available, and find a space to test that is quiet and where they are alone. As part of the proctored test, students may be required to undertake a "room scan", which will involve rotating the webcam three hundred sixty degrees around the testing space.

In order to support student success, Kaskaskia College does provide students free computer and internet access at the main campus and all Education Centers. If you do not have access to the recommended computer resources needed for your course(s), please utilize the services provided by Kaskaskia College.
